SUMMARY

My name is Ermiyas Tesfaye, and I'm a third-year software engineering student at Addis Ababa University. Originally from Addis Ababa, I have a passion for both technology and the arts. I completed my primary education at Embut School and then attended Vision Academy for high school. During that time, I won drawing contests twice, showcasing my artistic abilities. Now, as a software engineering student, I am dedicated to expanding my technical skills and knowledge. Outside of my studies, I find joy in attending church, watching movies, and playing football. These activities provide me with spiritual fulfillment, creative inspiration, and physical activity. I'm excited about the possibilities that lie ahead in the world of software engineering and art. With a commitment to growth and making a positive impact, I look forward to the journey ahead.

STRENGTHS

Eager to learn new skills

As a person who is starting out, I am constantly seeking for new ways to grow and expand my skill set.

Not afraid of failure

Strong believer in the mantra that we learn from our mistakes.

Time management

I always set aside time to plan my week and distribute the workload by days so that I can simultaneously meet deadlines and maintain my well-being.

Collaborative

Participating in many group activities taught me everything there is to know about being a team player.
